## APPENDIX

### EXPLANATION OF OBSERVATION ID

The day after the 999th day of operation of LANDSAT 1, the first digit of the observation ID becomes a 5, signifying that the 1000th day of operation has been reached. The next three digits, which correspond to the count of days since launch, return to 000. On each day thereafter the count, as before, increases by one. The ID format for LANDSAT 1 is illustrated below:

1000 - hhmms

--

--

1998 - hhmms

1999 - hhmms            April 18, 1975

5000 - hhmms            April 19, 1975

5001 - hhmms (Days since launch equal 1001)

--

--

The same general identification procedure will be used for LANDSAT 2 imagery. The day after the 999th day of operation of LANDSAT 2, the first digit of the observation ID becomes a 6, and the next three digits return to 000 as explained above. An illustration follows:

2000 - hhmms

--

--

2999 - hhmms

6000 - hhmms

6001 - hhmms (Days since launch equal 1001)

--

--

Key:    hh = hours  
         mm = minutes  
         s = tens of seconds
